

Provisional Event Calendar 2010

We have published a provisional event calendar for 2010, you can check it at <http://www.speedworldcup.com/events-2010.html>.

Most of the events are still to be confirmed due to the difficult economical situation, but we are doing our best to confirm them as soon as possible.

Many events in 2010 will be held with the use of GPS timing devices, which enables us to be more flexible on course setting and really go for the good conditions.

The world championships for both Windsurfers and Kiteboarders will be held on Fuerteventura from 28.07.-02.08.2010.
